

Reports

Reports is the main dashboard for a host of automated student results data. From individual student summary reports (great for parent/teacher meetings) to weekly summaries of classroom performance, improvements and certificates.

View Reports

- 01 Select your class and group at the top of the screen. The screen will then display the results for those students. You can also select a date range.
- 02 To view results for an individual student, simply click their name.
- 03 Results cover a wide range of usage, highlighting **Correctly and Incorrectly spelt words** – as well as time online and participation levels (such as points and certificates earned).
